

INDEX

- Acholic jaundice, early accounts of, and the subsequent history of Wilson's patients, 323; heredity in, 333.
- Acidity and secretion, gastric, in health, observations on the, 455; of the stomach contents, some observations on the action of belladonna and neutral fats on the, 74.
- Action of belladonna and neutral fats on the acidity of the stomach contents, some observations on the, 74; the purgative, of magnesium salts, 249.
- Aortic lesions, nerve irritation and: an experimental study, 203.
- Arteries, coronary, the clinical syndrome of thrombosis of the, 44.
- Artificial pneumothorax therapy, observations on the development of contralateral disease in, 179.
- Aspect of bundle branch block, the clinical, 95.
- Association of Physicians of Great Britain and Ireland, Proceedings of, *at end of volume*.
- Autotoxic enterogenous cyanosis, two cases of, 257.
- Belladonna and neutral fats, some observations on the action of, on the acidity of the stomach contents, 74.
- Block, bundle branch, the clinical aspect of, 95.
- Blood, on the hydrogen-ion concentration and some other properties of the, from two cases of autotoxic enterogenous cyanosis, 257.
- Blood-fats, the, in diabetes mellitus in relation to treatment, 159.
- Blood-pressure, the effect on renal efficiency of lowering the, in cases of high blood-pressure, 411.
- Bundle branch block, the clinical aspect of, 95.
- Calcium, serum, pathological variations in the, 235.
- Can insulin produce even a partial cure in human diabetes mellitus? 223.
- Cerebro-spinal fluid, a critical analysis of certain laboratory methods applied to the, in the serological diagnosis of neuro-syphilis, 431.
- Chlorides, the excretion of, by the healthy and diseased kidney, 53.
- Clinical aspect, the, of bundle branch block, 95; syndrome, the, of thrombosis of the coronary arteries, 44.
- Concentration, on the hydrogen-ion, and some other properties of the blood from two cases of autotoxic enterogenous cyanosis, 257.
- Congenital porphyrinuria (haematoporphyrin congenita), a further contribution to the study of, 357; its association with hydroa vacciniforme and pigmentation of the teeth, 375.
- Contralateral disease in artificial pneumothorax therapy, observations on the development of, 179.
- Coronary arteries, thrombosis of, the clinical syndrome of, 44.
- Critical analysis, a, of certain laboratory methods applied to the cerebro-spinal fluid in the serological diagnosis of neuro-syphilis, 431.
- Cure, can insulin produce even a partial, in human diabetes mellitus? 223.
- Curve in health, the dextrose tolerance, 393.
- Cyanosis, autotoxic enterogenous, two cases of, 257.
- Development of contralateral disease in artificial pneumothorax therapy, observations on the, 179.
- Dextrose tolerance curve, the, in health, 393.
- Diabetes mellitus, the blood-fats in, in relation to treatment, 159; human, can insulin produce even a partial cure in, 223.
- Diffuse infiltration of the lungs and intense erythraemia, a case of malignant change developing in a tumour of the recto-genital pouch associated with, 151.
- Diseased kidney, the excretion of chlorides by the healthy and, 53.
- Disturbance of the physiology of muscle, the spasm of tetany considered as a, 311.
- Diverticula, intestinal, 1.
- Early accounts of acholic jaundice and the subsequent history of Wilson's patients, 323.
- Effect on renal efficiency, the, of lowering the blood-pressure in cases of high blood-pressure, 411.
- Endocarditis lenta, the relative prevalence of so-called, before and after the war, 35.
- Enterogenous cyanosis, autotoxic, two cases of, 257.
- Epilepsy, the inheritance of, 299.

- Association of Physicians of Great Britain and Ireland, Proceedings of, *at end of volume*.
- Autotoxic enterogenous cyanosis, two cases of, 257.
- Belladonna and neutral fats, some observations on the action of, on the acidity of the stomach contents, 74.
- Block, bundle branch, the clinical aspect of, 95.
- Blood, on the hydrogen-ion concentration and some other properties of the, from two cases of autotoxic enterogenous cyanosis, 257.
- Blood-fats, the, in diabetes mellitus in relation to treatment, 159.
- Blood-pressure, the effect on renal efficiency of lowering the, in cases of high blood-pressure, 411.
- Bundle branch block, the clinical aspect of, 95.
- Calcium, serum, pathological variations in the, 235.
- Can insulin produce even a partial cure in human diabetes mellitus? 223.
- Cerebro-spinal fluid, a critical analysis of certain laboratory methods applied to the, in the serological diagnosis of neuro-syphilis, 431.
- Chlorides, the excretion of, by the healthy and diseased kidney, 53.
- Clinical aspect, the, of bundle branch block, 95; syndrome, the, of thrombosis of the coronary arteries, 44.
- Concentration, on the hydrogen-ion, and some other properties of the blood from two cases of autotoxic enterogenous cyanosis, 257.
- Congenital porphyrinuria (haematoporphyrin congenita), a further contribution to the study of, 357; its association with hydroa vacciniforme and pigmentation of the teeth, 375.
- Contralateral disease in artificial pneumothorax therapy, observations on the development of, 179.
- Coronary arteries, thrombosis of, the clinical syndrome of, 44.
- Critical analysis, a, of certain laboratory methods applied to the cerebro-spinal fluid in the serological diagnosis of neuro-syphilis, 431.
- Cure, can insulin produce even a partial, in human diabetes mellitus? 223.
- Curve in health, the dextrose tolerance, 393.
- Cyanosis, autotoxic enterogenous, two cases of, 257.
- Development of contralateral disease in artificial pneumothorax therapy, observations on the, 179.
- Dextrose tolerance curve, the, in health, 393.
- Diabetes mellitus, the blood-fats in, in relation to treatment, 159; human, can insulin produce even a partial cure in, 223.
- Diffuse infiltration of the lungs and intense erythraemia, a case of malignant change developing in a tumour of the recto-genital pouch associated with, 151.
- Diseased kidney, the excretion of chlorides by the healthy and, 53.
- Disturbance of the physiology of muscle, the spasm of tetany considered as a, 311.
- Diverticula, intestinal, 1.
- Early accounts of acholic jaundice and the subsequent history of Wilson's patients, 323.
- Effect on renal efficiency, the, of lowering the blood-pressure in cases of high blood-pressure, 411.
- Endocarditis lenta, the relative prevalence of so-called, before and after the war, 35.
- Enterogenous cyanosis, autotoxic, two cases of, 257.
- Epilepsy, the inheritance of, 299.

- Erythraemia, intense, and diffuse infiltration of the lungs, a case of malignant change developing in a tumour of the recto-genital pouch associated with, 151.
- Excretion of chlorides, the, by the healthy and diseased kidney, 53.
- Failure, heart, with normal rhythm, 113.
- Functional pathology of nephritis, the, 273.
- Further contribution, a, to the study of congenital porphyrinuria (haematoporphyrin congenita), 357.
- Gastric acidity and secretion in health, observations on the, 455.
- Haematoporphyrin congenita with hydroa vacciniforme and hirsuties, 381; (congenital porphyrinuria), a further contribution to the study of, 357; its association with hydroa vacciniforme and pigmentation of the teeth, 375.
- Health, the dextrose tolerance curve in, 393; observations on the gastric acidity and secretion in, 455.
- Healthy and diseased kidney, the excretion of chlorides by the, 53.
- Heart failure with normal rhythm, 113.
- Heredity in acholuric jaundice, 333.
- High blood-pressure, cases of, the effect on renal efficiency of lowering the blood-pressure in, 411.
- Hirsuties, haematoporphyrin congenita with hydroa vacciniforme and, 381.
- Human diabetes mellitus, can insulin produce even a partial cure in, 223.
- Hydroa vacciniforme and hirsuties, haematoporphyrin congenita with, 381; and pigmentation of the teeth, association of haematoporphyrin congenita with, 375.
- Hydrogen-ion concentration, on the, and some other properties of the blood from two cases of autotoxic enterogenous cyanosis, 257.
- Inheritance of epilepsy, the, 299.
- Insulin, can it produce even a partial cure in human diabetes mellitus? 223.
- Intestinal diverticula, 1.
- Irritation, nerve, and aortic lesions: an experimental study, 203.
- Jaundice, acholuric, early accounts of, and the subsequent history of Wilson's patients, 323; heredity in, 333.
- Kidney, the excretion of chlorides by the healthy and diseased, 53.
- Laboratory methods applied to the cerebro-spinal fluid, a critical analysis of certain, in the serological diagnosis of neuro-syphilis, 431.
- Lesions, aortic, nerve irritation and: an experimental study, 203.
- Lowering the blood-pressure in cases of high blood-pressure, the effect on renal efficiency of, 411.
- Lungs, diffuse infiltration of the, and intense erythraemia, a case of malignant change developing in a tumour of the recto-genital pouch associated with, 151.
- Magnesium salts, the purgative action of, 249.
- Malignant change developing in a tumour of the recto-genital pouch, a case of, associated with diffuse infiltration of the lungs and intense erythraemia, 151.
- Muscle, the spasm of tetany considered as a disturbance of the physiology of, 311.
- Nephritis, the functional pathology of, 273.
- Nerve irritation and aortic lesions: an experimental study, 203.
- Neuro-syphilis, the serological diagnosis of, a critical analysis of certain laboratory methods applied to the cerebro-spinal fluid in, 431.
- Neutral fats, some observations on the action of belladonna and, on the acidity of the stomach contents, 74.
- Normal rhythm, heart failure with, 113.
- Observations on the development of contralateral disease in artificial pneumothorax therapy, 179; on the gastric acidity and secretion in health, 455; some, on the action of belladonna and neutral fats on the acidity of the stomach contents, 74.
- On sulphaemoglobinaemia, 86.
- Pathological variations in the serum calcium, 235.
- Pathology, the functional, of nephritis, 273.
- Physicians of Great Britain and Ireland, Proceedings of the Association of, *at end of volume*.
- Physiology of muscle, disturbance of the, the spasm of tetany considered as a, 311.
- Pigmentation of the teeth, hydroa vacciniforme and, association of haematoporphyrin congenita with, 375.
- Pneumothorax therapy, artificial, observations on the development of contralateral disease in, 179.
- Porphyrinuria, congenital (haematoporphyrin congenita), a further contribution to the study of, 357; its association with hydroa vacciniforme and pigmentation of the teeth, 375.
- Purgative action, the, of magnesium salts, 249.

- Recto-genital pouch, a case of malignant change developing in a tumour of the, associated with diffuse infiltration of the lungs and intense erythraemia, 151.
- Relative prevalence of so-called endocarditis lenta, the, before and after the war, 35.
- Renal efficiency, the effect on, of lowering the blood-pressure in cases of high blood-pressure, 411.
- Rhythm, normal, heart failure with, 113.
- Salts, the purgative action of magnesium, 249.
- Serological diagnosis of neuro-syphilis, the, a critical analysis of certain laboratory methods applied to the cerebro-spinal fluid in, 431.
- Serum calcium, pathological variations in the, 235.
- Some observations on the action of belladonna and neutral fats on the acidity of the stomach contents, 74.
- Spasm of tetany, the, considered as a disturbance of the physiology of muscle, 311.
- Stomach contents, acidity of the, some observations on the action of belladonna and neutral fats on the, 74.
- Subsequent history of Wilson's patients, early accounts of acholuric jaundice and the, 323.
- Sulphaemoglobinaemia, on, 86.
- Survey, a, of 195 cases of so-called endocarditis lenta, 35.
- Syndrome, the clinical, of thrombosis of the coronary arteries, 44.
- Tetany considered as a disturbance of the physiology of muscle, the spasm of, 311.
- Therapy, artificial pneumothorax, observations on the development of contralateral disease in, 179.
- Thrombosis of the coronary arteries, the clinical syndrome of, 44.
- Treatment, the blood-fats in diabetes mellitus in relation to, 159.
- Tumour of the recto-genital pouch, a case of malignant change developing in a, associated with diffuse infiltration of the lungs and intense erythraemia, 151.
- Two cases of autotoxic enterogenous cyanosis, on the hydrogen-ion concentration and some other properties of the blood from, 257.
- Variations, pathological, in the serum calcium, 235.
- War, the relative prevalence of so-called endocarditis lenta before and after the, 35.
- Wilson's patients, the subsequent history of, early accounts of acholuric jaundice and, 323.
